DETAILED ACTION

Claims 1-3 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Any claim not specifically rejected is rejected as it is a dependent claim on a rejected claim and shares the same indefiniteness.

1. Claim 1 is indefinite as it recites a composition but includes only a compound.
A composition requires more than one ingredient. Furthermore it recites and “pharmaceutically acceptable salts”. It is not clear whether composition with its salts is intended.
2. Claim 1 is also indefinite as it fails to recite the value of n variable in R definition.
3. Claim 1 is again indefinite as R' definition leaves O and S dangling with a free valence. What is appended to the other end remains unknown.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1624

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Kishimoto et al. US 5,180,738.

Kishimoto et al. teaches several fumagillol compounds which includes instant compound and its use.

See entire document especially formula I on column 1 and note the definition of various variable groups. See column 12 through 50 for examples 1-77.
